MEMORANDUM FOR THE FILES

25X1 SUBJECT: [ ] PAR 215 (RT-24 Processor)

25X1 By request of [ ] of PSD/PLB changes are being made in the execution of PAR-214 (RT-12) and the subject PAR-215 (RT-24 Processor) as described herein.

PAR-215 (RT-24) will be given top priority to produce a working machine at the earliest date. Should it be necessary to delay delivery of the RT-12 (PAR-214) to accelerate the RT-24 machine, this will be done.

A hypo eliminator wash stage should be incorporated in the processor and the water should not be reused by reverse cascading.

25X1 [ ] was advised of these changes by phone on this date.
